

**mazzivo®**

# BOLSANO

assembly instructions

**To assemble the bed, you will need the following:**

a battery-powered screwdriver, a cross-head screwdriver, an 8mm Allen wrench, a hammer  
- two adults.

**Bed frame:**

Headboard (1) - 1 pc  
Footrest (2) - 1 pc  
Side panels (3, 4) - 2 pcs

**Bed support:**

Central board (5) - 1 pc  
Central legs (6,7) - 2 pcs

**Fixing elements:**

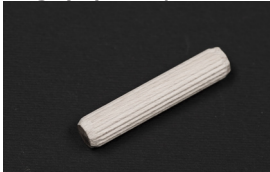

Maxifix eccentric - 8 pcs A

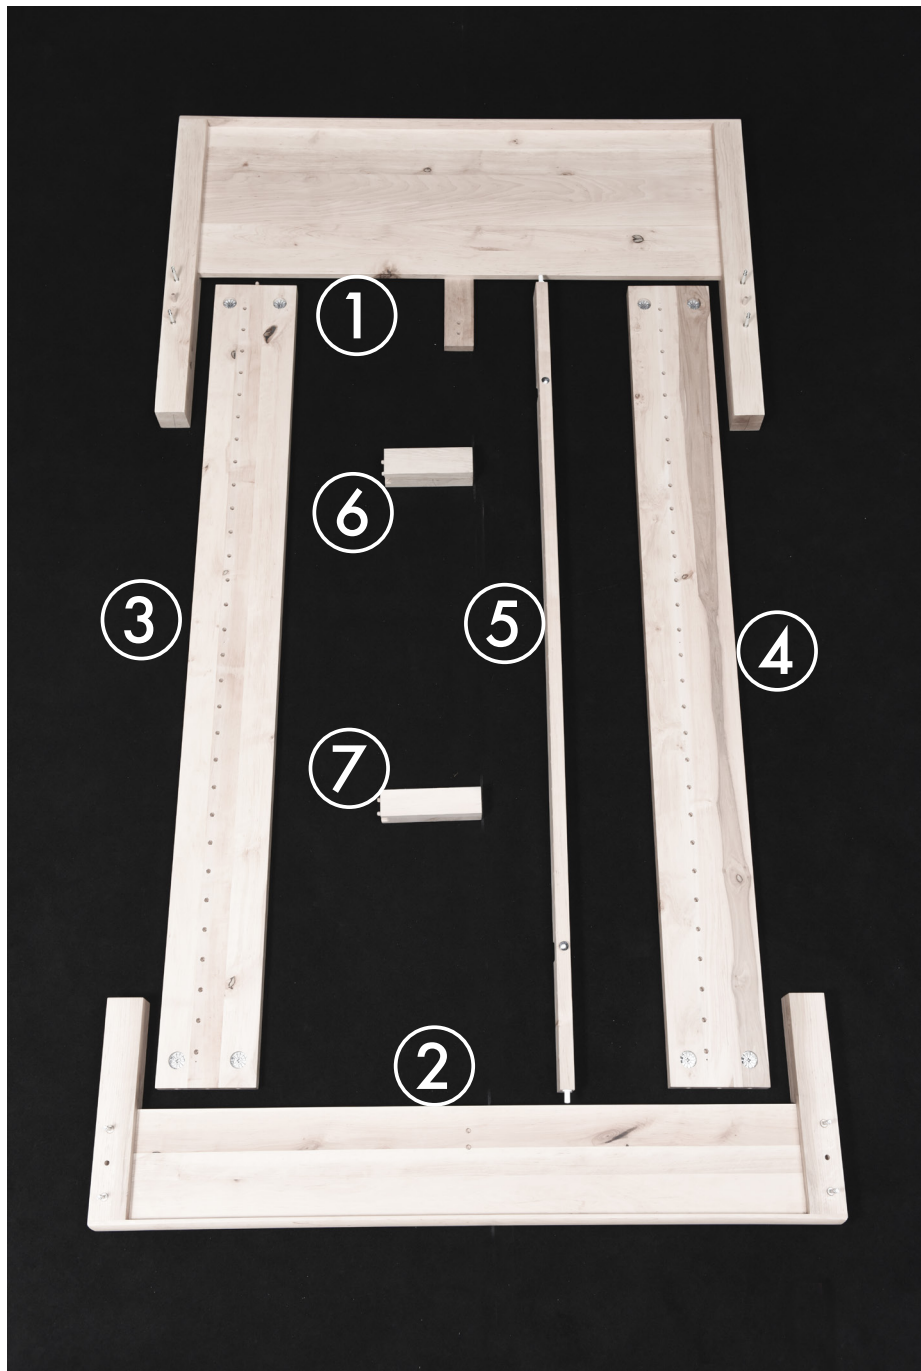

Mandrel (C) - 8 pcs

Peg (G) - 8 pcs

Screw (J) - 4 pcs

**Note:**

Some elements of the structure may already be mounted in the bed frame, therefore their number may change. If there are any components missing, please contact our customer service department.

**General safety notes:** Keep all small parts and parts of the frame away from children! Heavy items should not be lifted up by one person!

1. Assembly of mandrels in the headboard (1) and the footrest (2)

2. Assembly of pegs in the headboard (1) and the footrest (2)

3 Assembly of eccentrics (A) to boxes of elements of the bed frame; the arrows indicate the outer edge

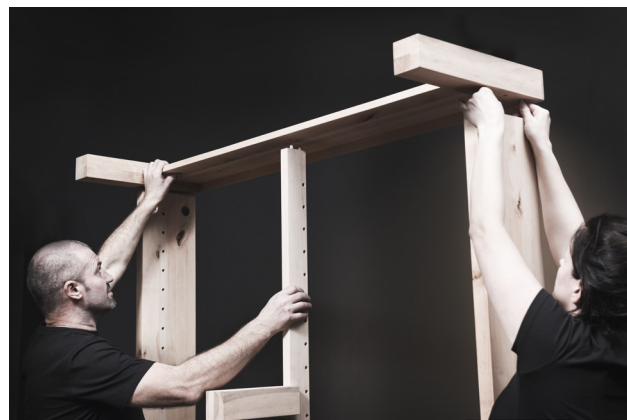

4. Connecting side panels (3,4) to the headboard (1), tightening the eccentric with a screwdriver.  
*We suggest doing this with the headboard in horizontal position*

5. Assembly of the central board (5)

6. Putting the footrest (2) on the side panels (3,4).

7. Tightening the eccentric with a screwdriver.

## A silent sleep system

### assembly instructions

1. Putting caps of the frame on the pegs.
2. Inserting the boards of the frame into the caps, as in the example shown in the pictures.
